Metal fuel drums or other fuel containers and caddies with manual pumps (no electric pumps) and hose lines are allowed to re-fill plastic jugs but are not allowed for re-fueling race cars. All fuel storage must be maintained on the “cold” side of the pit wall or kept within your transporter.
- ⚡ SRPP4 – All teams shall have one (1) fully-charged 10LB ABC fire extinguisher in their pit area. All teams shall have one (1) 10LB bag of kitty litter or other reasonable absorbent for oil leaks and/or fuel spillage in their pit area. Having a broom handy is also be advisable.

- ⚡ SRPP6 – All work and/or repairs that can be made to your race cars in under thirty (30) minutes may be executed in the Pit Lane; all repairs requiring more than 30 minutes time must be completed in the Garage Area. A penalty of 1 lap for every five (5) minutes of work in the pit lane that exceeds 30 minutes shall be levied.
- ⚡ SRPP7 – All team members over the wall during fueling must wear a Nomex driver’s suit, gloves and full-face helmet.
- ⚡ SRPP8 – Electric, propane or kerosene heaters within the “cold” side of the pit wall are allowed provided all heating elements or flame sources are directed away from any flammable material and are kept a minimum of 20’ from any fuel storage. No open flame stoves or BBQs are allowed in the cold pits.

- SRPP9 – All cars, used or junk parts too big for a normal trash can, empty fuel drums and anything else you brought with you must be taken out with you. If you leave it behind, we'll track you down... and it won't be pretty.
